OBJECTIVE

Software Engineer with 2+ years of experience writing code, seeking remote front-end roles.

SKILLS

Technical Skills React-JS, Redux, Unity3D, Version Control(Git), Test Driven Development

EXPERIENCE

Junior Software Developer

March 2022 - Present

Pebble Technologies

Kathmandu, Nepal

- Worked in a small team as a developer focusing in writing game logic and working with the front end of the product.
- Developed a CRUD video game targeting mobile devices from scratch.
- Worked with C and Unity 3D.

PROJECTS

Booksgasm Nepal Website Built e-commerce website to buy books using React-JS. Used Firebase to store data of the products and the users. Implemented CRUD functionality. ([Check it out](#))

Task-Apart Build a task management website with authentication and Firebase. I personally use this app regularly to manage my tasks for the day. ([Check it out](#))

My Indian Garden Build a landing page as a freelance project for a restaurant based in Portugal. Used HTML, CSS and JavaScript for the project ([Check it out](#))

EXTRA-CURRICULAR ACTIVITIES

- Won the National Finals and participated in the Regional Finals for the [Microsoft Imagine Cup 2022](#). Me alongside my team developed a remote thyroid detection technology.
- Winner of the [National Olympiad of Informatics](#) 2022 organised by STEM Foundation Nepal.

EDUCATION

Bachelor of Computer Science, Tribhuwan University

2022 - Expected 2026

High School Degree, St.Xaviers College

2019 - 2021
